DOSAGE

Depending on the level of exercise, provide from 0.75 to 1 kg for each 100 kg of body weight. Distribute this amount of feed over 2 servings per day. Supply quality fodder, at least 2 kg per each 100 kg of weight.

PRODUCT TYPE

A special formula for horses used for sport and in competitions, with high physical activity and substantial expenditure of energy. This food gives a rich source of easily digestible starch to your horses, as well as all the nutritional requirements they need, with quality and a very attractive and appetising presentation.

Its composition includes vaporised cereal flakes which provide an excellent source of energy, as well as top quality fibres very rich in pectins. All the ingredients are covered with vegetable oils rich in omega 3 and omega 6 fatty acids.

We supplement this food with electrolytes, selenium and natural vitamin E fundamental for the correct hydration of the horse and to help recovery after intense work.

Absence of dust and fine particles.

Packed in 25 kg waterproof paper bags.
